Finding and Fixing Misplaced and Dangling Modifiers

Understand the problem.

Think of modifiers as arrows and the words that they describe as bull's-eyes. For clear, logical sentences, writers aim modifiers so that they strike as close to the intended targets as possible.

Read this example:

Sneering with superiority, Roland drank iced tea from a crystal glass that sparkled in the afternoon sun.

*Sneering with superiority*, a participle phrase, describes *Roland*, the noun right after it. *That sparkled in the afternoon sun*, a relative clause, describes *glass*, the noun in front.

Recognizing Misplaced Modifiers

When a writer's aim is off and too much distance separates the modifier from its target, a misplaced modifier is the result.

Consider this example:

Sucking warm water from a rubber hose, envious looks were shot Roland's way as the other picnickers quenched their own thirst.

*Sucking warm water from a rubber hose*, a participle phrase, should describe *picnickers*, but since that noun is so far away, the phrase seems to be modifying *envious looks*, which don't have mouths that can drink from a hose!
Recognizing Dangling Modifiers

If the sentence fails to include a target, the modifier is **dangling**.

Read this example:

*With a sigh of pleasure, consumption of cucumber sandwiches commenced.*

We assume that Roland is the one sighing with pleasure and eating cucumber sandwiches, but notice that he is not in the sentence, so we cannot tell for sure!

Know the solution.

Misplaced and dangling modifiers make sentences awkward and inelegant. They keep sentences from expressing clear, straightforward ideas. When you discover a misplaced or dangling modifier in a sentence, you will need to rearrange and/or revise the sentence parts to untangle the idea the sentence wants to express.

Fixing Misplaced Modifiers

Rearranging sentence parts will often fix a misplaced modifier. Remember that most **modifiers** come as close to their targets as possible.

Here is the original error:

*Sucking warm water from a rubber hose, envious looks were shot Roland's way as the other picnickers quenched their own thirst.*

If we move things around, the modifier hits the right target:

*Sucking warm water from a rubber hose, the other picnickers quenched their own thirst as they shot envious looks Roland's way.*

Now we have picnickers drinking from the rubber hose, which is clear and logical!
**Fixing Dangling Modifiers**

To fix a dangling modifier, you will need to add a target to the sentence and then tweak the remaining words to make sense.

Here is the original error without a logical target:

> With a sigh of pleasure, consumption of cucumber sandwiches commenced.

Notice that the addition of a target makes the sentence clear:

> With a sigh of pleasure, Roland began to consume cucumber sandwiches.

> After Roland sighed with pleasure, he began to consume cucumber sandwiches.

Now we know who got to eat that delicious snack!
